Microlab Eindhoven

Our office is located in the Microlab in Eindhoven. But what exactly is Microlab? Philips used to make the first LCD displays in this old building, so there is a lot of history there. Now it is converted into perhaps the nicest and most creative workplace in the Netherlands.

In the Microlab you'll find a collection of innovative and creative companies. From artists to medical start-ups, high-tech IT companies and law firms. And from musicians, marketers to graphic designers.

A place that thrives on collaboration, entrepreneurship, modern technology and especially creativity. By working together and sharing the spaces in the Microlab, we inspire each other, and save the environment.

100% honest and independent

GoodFinanZ is completely independent. We honestly compare the mortgages of almost all banks and insurers in the Netherlands.

Together with you, we choose the right mortgage from the right bank, based on the conditions and starting points that you consider important. We have no obligation to place financial products with certain financial institutions. You are therefore completely free in your choices.

Cooperation

We don't know everything. That is why we believe in cooperation. Of course we work together with banks and insurers, but also with notaries, appraisers, real estate agents, refinishers, tax advisers, energy consultants, and approved installers of energy-saving measures.

Our Core Values

Good people - 'Just act normal, that's crazy enough'. That's why we do not like ties or expensive office buildings. We like to help people. We are open, honest and clear. About everything we advise you. But also about how we work and the way we earn our money.

Good planet - We want to be good. Not only for you, but also for the world around us. That is why we think it is important to conduct business in a sustainable and socially responsible manner

Good advice - We do not sell you products, but will always advise you as good and honest as possible. Sometimes that means we advise you not to do something, you want to. We always advise what is in your interest.

Good contact - You can count on one personal advisor. Short lines and personal contact. That is what we offer.

Good privacy - Your personal information is safe with us. We treat them strictly confidentially and only use them if we represent your interests according to the agreement

Our services

Mortgages

Need a mortgage? We not only help you choose the right mortgage, but we arrange all administrative matters for you. 'Full service' we call that. And we don't have any surcharges for non-dutch speaking customers.

With over 20 years of experience in the field of mortgages, we know the market like no other. Of course we compare independent all banks, insurers and other mortgage lenders in the market. We tell you what options you have and give you insight into the conditions and differences. This way we help you to make make the right choices. And after you made you choices? Leave the rest to us. We arrange the entire financial process, from first advice to the notary.

Insurances

Always an affordable insurance package with the best conditions, that fits your needs? And your own advisor, who helps you if you have a question or damage? With a personalized, tailor-made insurance package you can always count on the most optimal coverage that fits your needs. And that at a considerable discount and the best conditions. Also for all your business insurance policies.

Socially involved insurances

We insure your belongings with an insurance company that also has an eye for the world around us. That way, by supporting good causes and local (climate) projects, a part of your premium or fee will be returned to our world and society.

Financial advice

At GoodFinanZ, you're also at the right address for financial advice or a complete financial analysis. We chart your entire financial situation in the area of your income. Short and long term, so also your pension. We also look at the consequences and risks of death, incapacity for work and unemployment and give you advice on how to limit these risks.

Energy saving advice

In addition to wanting to contribute to a better world ourselves, we also want to help our customers with this. We therefore help you to get in touch with a recognized energy advisor. He can arrange your (mandatory) energy label or will help you with advice on making your home energy efficient. Think of floor, wall or roof insulation, heating, but also, for example, the option of a solar boiler or solar panels, but also the heating system.

Loans, help with your tax affairs and other services

We are happy to assist you in taking out a loan, accompany you with the purchase of your new home or help you fill out your tax return. You can also contact us for most other financial questions. Ask for the possibilities!

Sustainable and socially involved

In everything we do, we think carefully about the effects on our world and society. How we do that? Below some examples of how we implement this.

Sustainable business management

In our daily business operations we are aware of the environmental impact. In this way we print as little as possible, but when we print, we do it on woodfree paper. We prefer to work together with parties that are also conscious about the world around us. We also drive to our customers in an electric car. The electricity comes from solar energy.

Climate projects and offset CO2 emissions

Part of our profit, we donate, through the Fair Climate Fund, in climate projects in developing countries. In this way we also compensate our CO2 emissions.

Sustainable insurances

We prefer to arrange your insurance with an insurer that is also aware and has an eye for the world around us. For example, by supporting good causes and local projects, part of your premium will be returned to our society.

Sustainable housing

Our office is located in the Microlab in Eindhoven. The old Philips building at the Kastanjelaan in Eindhoven has been completely converted into a modern workplace for many different companies. By working together and sharing the spaces, we save money and the environment

Your data is safe

To be able to advise you properly, it is important that we communicate with each other in an honest and open manner. Important matters such as income, assets, debts, etc. are very privacy-sensitive data. We understand that we can ask a lot of information, but your personal information is safe with us. We treat them strictly confidentially and only use them if we represent your interests according to our agreement.
